Top 2 News Items and 1 FAQ!

1. The 3 day virtual workshop on Curriculum went very well. The Acadia team was well prepared and were able to complete much of the work necessary for configuration. The next workshop in June will complete the workshop process for this aspect of Colleague Student System. The team will complete configuration in July.
2. The Project ACE team continues to spearhead the efforts to move the project forward. We have now re-engaged the survey process so many of you will be asked to complete one to help inform our communication and training programs. We thank you in advance!

FAQ- How will training on the new system be delivered?

Answer- The project team will develop a training program for those impacted by the change to Colleague Student. It will then go to the steering committee for approval. The intention is to tailor the training to the audience to ensure that it will deliver what is needed. It will all be in keeping with the change model that we are using with the project.

Change can be hard and complex. Have any concerns or ideas about training? Share them [here](#)

New Video to View!

Listen to **Mary** from the steering committee share her excitement for the new system. It is more important now than ever!
