

August 12, 2020
Bulletin Issue 18

Top 3 News Items

1. Last week the Ellucian team led a weeklong workshop on admissions design. Several stakeholders shared their requirements to help inform this configuration. It was important to ensure that our recruitment software, Slate, could communicate with our new student information system.
2. One of the benefits of working with a large vendor is that they share proven practices with us. This allows us to benefit from the work of other institutions who have already done this work.
3. If you are interested in learning how a change management model can help you to become more resilient, there is a presentation on August 13 at 10 am. Watch for an announcement from HR to register.
